SHEET METAL INDUSTRIES 1984 INDEX

JANUARY TO DECEMBER, VOLUME 61

A

A new 6XXX series aluminium car body sheet alloy 492
A productive solution to machine guarding 628
Adding punch to productivity 258
Adhesive joining of sheet metals with reference to motor vehicle assembly 77
Adhesive tape protects surface quality 31
Advanced features for increased productivity, reduced downtime and greater safety 701
Advanced structural composites 153
Advances in pipe-bending techniques 337
Aluminium alloy, Hot formability of titanium and an 653
Aluminium car body sheet alloy, A new 6XXX series 492
Aluminium coil coating, The technology of 97
Aluminium plate stretcher, World's largest class 73
Aluminium sheet forming, Superplastic 447
An innovative processing technique 386
Angular blanks from coil stock — fast, accurate 402
Annealing furnace, Improved efficiency for 141
Anti-corrosion performance of pre-coated materials 648
Arc welded large diameter stainless steel pipes for LNG piping, Development of 35
Assemblage 84 Exhibition 275
Asymmetric plastic flow of anisotropic sheet during deep drawing 201
Austin Rover Montego 262
Automated manufacturing cells 232, 239
Automated plate handling systems 68
Automated production facility commissioned 118
Automatic brazing machines, Developments in 82

B

Bake-hardenable sheet steels — old and new 50
Banding lines designed for stainless steel 396
Bevelling machine for pipes, Numerical-control LED oxygen-cutting and 687
Blech 84 Preview 540
Bonding technology — the advantages to industry 441
Brazing machines, Developments in automatic 82
Bright future for protective coating 137
BCPA News 67, 117
BCPA Review 423

C

Cam-controlled automatic stamping and forming machines 482
Ceramic coatings to save energy. High emissivity 686
Ceramic recuperators and high velocity burners 683
Chemical pretreatment of metal surfaces 132
Cladding, Repaint systems for 285
CNC hole punch helps increase productivity 359
CNC fine blanking 576
CNC, Mechanical presses operated by 692
Coated coil, Organic finishes for 103
Coating, Bright future for protective 137
Coil coater, A versatile 291
Coil Coating 84 Preview 192
Coil coating industry, The Italian 640
Coil coating, The technology of aluminium 97
Coil handling without damage 402
Coil processing 386
Coil processing runs smoothly 388
Cold cutting without edge dressing 71
Cold roll forming rolls by computer, Design and manufacture of 318
Commercial production of stainless-clad plate 395
Competitive edge in sheet metal subcontracting 207
Compact equipment from Dutch supplier 395
Composites, Advanced structural 153
Comprehensive spinning facilities 678
Computer controlled heat treatment 683
Computerised integrated automated manufacturing for aluminium sheet components (CIAM) 239
Computerised multi sheet blanking line 389
Contemporary materials for modern industry 498
Controlling noise in industry 618
Conveyor stacker aids cooker manufacture 131
Copper foil for telecommunications 595
Corrosion resistance of some low Mn austenitic stainless steels 25
Current trends in transfer presswork 182

D

Deep drawing, Asymmetric plastic flow of anisotropic sheet during 201
Design and manufacture of cold roll forming rolls by computer 318
Development boosts transfer press output 190
Development of arc welded large diameter stainless steel pipes for LNG piping 35
Developments in automatic brazing machines 82
Developments in the manipulation of tube and pipe 337
Developments in welding stainless steel 48
Dry film lubrication for forming 38
Ducting manufacture, Modern method for 140

E

Eccentric press for cold working 697
Effective servicing of stainless steels 18
Electric servo-controlled tri-axis transfer press 695
Electronic presses aid production efficiency 551
Energy saving system, Record orders gained from 686
ECCA (European Coil Coating Association) News 93, 277, 459, 652
ECCA Italian Review 640

F

Factory for punch press tooling 331
Fasteners for every occasion 84
Fine blanking, CNC 576
Fine blanking presses, New generation of 40
Finishing plant completed 138
Flexible manufacturing systems in sheet metal 232
Flexibility high — overheads low 578
Foil feature 431
Foil for telecommunications, Copper 595
Forming limit curves in cup drawing, The application of 410
Forming of stainless steel pipe joint 22

G

Galvalume sheet, The new prepainted 512
Guarding, A productive solution to machine 628
Guarding and safety 617
Guarding and safety news 632
Guarding and safety testing, Machine 621

H

Half a century of craftsmanship 509
Health and safety at work 617
Heat exchangers, Manufacture of 28
Heat treatment 680
Heat treatment in sheet metal forming 684
Heavy gauge materials 405
Heavy plate forming — a prerequisite for energy supply 453
High emissivity ceramic coatings to save energy 686
High-performance stainless steels: ten years of successful performance prove their worth in seawater-cooled condensers 143
High reliability strip steel for the computer industry 445
High speed plasma cutting 444
High speed transfer press 698
Home laundry products benefits from synthetic material injection 501
Horses for courses in the sheet metal shop 635
Hot formability of titanium and an aluminium alloy 653
Hydraulic presses for metal forming, Workpiece and tool handling on 405

I

'If it's round it's a job for us' 677
Induction heating of sheet, plate and strip 680
Improved efficiency for annealing furnace 141
ISME News 8, 67, 117, 176 230, 385, 574, 614, 671
Italian coil coating industry 640

L

Lamps, luminaires and electronics come to light, New 625
Larger premises for metal casing manufacture 131
Last Words 56, 108, 160, 212, 300, 368, 417, 521, 600, 660, 707

M

Mach 84 Preview 246
Machine guarding and safety testing 621
Machine tool company breaks new ground abroad 261
Machine Outile 84 exhibition 275
Machinery builder celebrates 160th year 691
Making recession pay 626
Manufacture of heat exchangers 28
Mechanical presses 691
Mechanical presses operated by CNC 692
Measurement of sheet thickness and double sheet monitoring 450
Measurement of surface texture, shape and profile in production of sheet steel 436
Metal casing manufacture, Larger premises for 131
Metal forming, Workpiece and tool handling on hydraulic presses for 405, 704
Metal Makes It 350, 511, 574, 704
Metal pretreatment, Phosphates for 133
Metal spinning — an underestimated — production process 678
Metal strips, Processing lines for 393
Metal surfaces, Chemical pretreatment of 132
Metalforming Machinery Makers' Association 21, 196
Metalworking ancillaries for maximum production 702
Method for analysing press shop failures of multistage forming operations with the help of an equivalent strain limit diagram 356
Micro controls laser in sheet metal cutting 558
Modern materials in aviation 500
Modern method for ducting manufacture 140
Multi sheet blanking line, Computerised 389
Multi-slide design and operation 481

N

New generation of fineblanking presses 40
New lamps, luminaires and electronics come to light 625
New materials complement sheet metal usages 498
News Review 3, 58, 110, 167, 219, 307, 375, 471, 526, 606, 666
Nitrogen aids tooling development 327
Noise in industry, Controlling 618
Non-contact techniques for accurate profiling 571
Numerical-control LED oxygen-cutting and bevelling machine for pipes 687
Numerical playback control on spinning machines — full advantage taken of the forming capacity 673

O

Office furniture manufacture, The future for 87
Organic finishes for coated coil 103
Oxygen-cutting and bevelling machine for pipes, Numerical-control LED 687

P

Paper superseded by metal at Royal Mint 704
Phosphates for metal pretreatment 133
Plant meets market needs 134
Plate handling systems, Automated 68
Panels, Probing the shape of 352
Pipe-bending techniques, Advances in 337
Planned approach to cost control, A 553
Plasma arc profiling — a specialist stockholder's service 565
Plasma cutting, High speed 444
Plasma arc cutting, Underwater 564
Plate 453
Plate stretcher, World's largest class aluminium 73

Portrait of a coil coating business 284
Power press refurbishment — an international business 698
Pre-coated materials, Anti-corrosion performances of 648
Press for large panel production, New 12
Press manufacturer increases product range 487
Press shop failures of multistage forming operations with the help of an equivalent strain limit diagram, Method for analysing 356
Presses aid production efficiency, Electronic 551
Pretreatment of metal surfaces, Chemical 132
Pretreatment, Phosphates for metal 133
Pretreatment plant meets market needs 134
Probing the shape of panels 352
Processing lines form metal strips 393
Processing technique, An innovative 386
Productique 84 exhibition 275
Products and Processes 42, 90, 156, 208, 293, 360, 414, 516, 597, 657, 705
Profile cutting 140
Profiling, Non-contact techniques for accurate 571
Profiling techniques review 558
Profiling technology, Multi-material 572
Profiling, Water jet 71
Promoting pace, productivity and precision 125
Protective coating, Bright future for 137
Punch press manufacturer, Triple celebration for 548
Punch press tooling, Factory for 331
Punching — the more economical alternative to drilling 639

Q

Quick change with unit tooling 637

R

Record orders gained from energy saving system 686
Redrawing the picture of UK industry 179
Repaint systems for cladding 285
Retrofit solves capacity problem 398
Road and rail, The best of 332
Rollforming without cracking 277

S

Secondhand not secondrate 404
Sheet 436
Sheet metal cutting, Micro controls laser in 558
Sheet metal, Flexible manufacturing systems in 232
Sheet metal forming, Heat treatment in 684
Sheet metal processing 393
Sheet metal shop, Horses for courses in the 635
Sheet metal subcontracting, Competitive edge in 207
Sheet metal usages, New materials complement 498
Sheet metals with reference to motor vehicle assembly, Adhesive joining of 77
Sheet steel, Measurement of surface texture, shape and profile in production of 436
Sheet steels — old and new, Bake-hardenable 50
Sheet thickness and double sheet monitoring, Measurement of 450
Simplified pole production 350
Specialist materials for demanding applications 431
Spinning 673
Spinning facilities, Comprehensive 678
Spinning machines — full advantage taken of the forming capacity, Numerical playback control on 673
Stainless-clad plate, Commercial production of 395
Stainless steel, Banding lines designed for 396
Stainless steel, Developments in welding 48
Stainless steel pipe joint, Forming of 22
Stainless steel pipes for LNG piping, Development of arc welded large diameter 35
Stainless steels, Corrosion resistance of some low Mn austenitic 25
Stainless steels, Effective servicing of 18
Stainless steel in the food processing industry 46
Stainless steels: ten years of successful performance prove their worth in seawater-cooled condensers, High performance 143
Stamping and forming machines, Cam-controlled automatic 482
Stamping, forming and welding for the electronic industry 481
Stamping techniques 125
Stampings, The key to silent 323
Steel grits, Trends in 138
Strip steel for the computer industry, High reliability 445
Subcon 84 exhibition 354
Superplastic aluminium sheet forming 447
Surface treatment + finishing exhibition 354
Swedish steel reorganisation 138

T

Tape-welding in electrical switches 435
The application of forming limit curves in cup drawing 410
The best of road and rail 332
The challenge to sheet steel 502
The future for office furniture manufacture 87
The key to silent stampings 323
The new prepainted Galvalume sheet 512
The technology of aluminium coil coating 97
Three decades of service 413
Three spindle transfer system with independent controls 701
Tinning line installed in Yugoslavia 149
Titanium and an aluminium alloy, Hot formability of 653
Tool clamping made easy 353
Tooling design, manufacture and use 318
Transfer equipment in standard presses 188
Transfer feed retrofits, Vital role for 188
Transfer press, Electric servo-controlled tri-axis 695
Transfer press output, Development boosts 190
Transfer presses for motor car panels 184
Transfer presswork 179, 182, 184, 188, 190
Transfer presswork, Current trends in 182
Trends in steel grits 138
Triple celebration for punch press manufacturer 548
Tube and pipe, Developments in the manipulation of 337
Tube handling survey 337
Tube manipulation today 340
Tubes, pipes, bars and sections — their manipulation and processing 342

U

Underwater plasma arc cutting 564
Unit tooling 635
Unit tooling, Quick change with 637

V

Vauxhall launch the British-built Astra 583
Vital role for transfer feed retrofits 188

W

Water jet profiling 71
Welding stainless steel, Developments in 48
What they want, when they want it 491
Workpiece and tool handling on hydraulic presses for metal forming 405
World's largest class aluminium plate stretcher 73
